VdS
TESTED

Currently the only certified safe lock with fingerscan module

SecuTronic – the first biometric safe lock with VdS certification.

- Developed by BURG-WÄCHTER
- Certified safe lock with integrated fingerscan module according to VdS, EN 1300 class 1
- Programmable electronic combination lock 'SecuTronic' with integrated fingerscan module
- In addition to a 6-digit user programmed code, up to 10 fingers can be programmed
- 1.000.000 different combinations possible
- When opening with fingerscan, 2 different fingers have to be programmed/entered
- The scanner only works with 'real, live, fingers'. Fake fingers or copies will not be identified
- The precise and highly sensitive procedure of authentication operates with different dermal conditions
- The opening of a safe by using the fingerscan is very quick and comfortable

'SecuTronic' – electronic combination lock

- VdS tested, ECB-S certified according to EN 1300 class B
- 1.000.000 different combinations possible

Security safe lock 'SecuSafe' – the high security safe lock

- Armored double bitted security lock
- VdS tested, ECB-S certified according to EN 1300 class A
- 9 levers
- More than 1.000.000 key differs
